

Raghul

Senior .NET Full Stack Developer

Email: rreerag@gmail.com | Phone: +91-8431665961

Professional Summary

Results-driven Senior .NET Full Stack Developer with nearly 7 years of experience designing and delivering scalable enterprise applications. Strong expertise in .NET Core, Angular, and SQL Server, with proven ability to build robust APIs, dynamic user interfaces, and optimized database solutions. Experienced in working directly with business stakeholders to gather requirements, translate them into technical solutions, and deliver high-impact applications. Skilled in enterprise integrations, workflow automation, and modern development practices including AI-assisted development.

Technical Skills

Languages & Frameworks: C#, .NET Core, ASP.NET Web API

Frontend: Angular, React, TypeScript, HTML5, CSS3

Database: SQL Server, LINQ, Stored Procedures

Microsoft Stack: SharePoint (Online & On-Prem), SPFx, Power Apps, Power Automate

Tools & Concepts: Entity Framework, REST APIs, Windows Services, CI/CD, AI-assisted coding, Prompt Engineering, LLM Workflows, Basic Agentic AI Concepts, Prompt Optimization, AI-driven Automation

Professional Experience

Programmer Analyst – Novigo Solutions Pvt Ltd (July 2019 – Present)

Dubai Petroleum Asset Management Project

Client: Dubai Petroleum | Role: Lead .NET Full Stack Developer | Apr 2021 – Present

- Designed and developed a full-stack enterprise application using .NET Core 8, Angular, and SQL Server supporting 500+ users
- Collaborated directly with business stakeholders to gather requirements, analyze workflows, and translate them into scalable technical solutions
- Built dynamic forms, dashboards, and user-centric interfaces
- Developed and maintained RESTful APIs and Windows services
- Optimized SQL queries, improving performance and system efficiency

- Managed deployments and release cycles, ensuring 99% production uptime

Wizz Air Intelex Integration

Client: Wizz Air Abu Dhabi | Role: .Net Developer | Aug 2022 – Nov 2022

- Developed Windows service for automated XML generation
- Integrated enterprise systems with Intelex ensuring accurate compliance data transfer

GCAA FAHR Intelex Integration

Role: C# Developer | Feb 2022 – May 2022

- Built middleware APIs for real-time work injury data integration
- Developed secure APIs for seamless data exchange

Dolphin Energy DPA API

Client: Dolphin Energy | Role: .Net Developer | Feb 2021 – Apr 2021

- Developed secure APIs for user delegation integrated with SAP and Nintex
- Improved workflow efficiency and reduced manual intervention

Abraj Intelex Integration

Client: Abraj Energy Services | Role: C# Developer | Oct 2020 – Feb 2021

- Developed Windows services for FTP/CSV data processing
- Built APIs for managing workgroups

Strong-Tie Nintex Forms & Workflow

Client: Simpson Strong-Tie | Role: SharePoint Developer | May 2020 – Oct 2020

- Developed and maintained enterprise workflows using Nintex and SharePoint
- Reduced approval cycle time through automation

Eltizam EForms

Client: Eltizam Group | Role: SharePoint Developer | Oct 2019 – Mar 2020

- Built and maintained workflow-based enterprise applications
- Improved operational efficiency through process automation

Education

Bachelor of Engineering (B.E.) – Computer Science
